Final-year Computer Science student specializing in Data Engineering, currently interning with the BDA team at TM One. Proficient in Python, SQL, Java, and C++, with hands-on work in Azure, PySpark, and Power BI. I like turning messy data into systems people can actually use.

PROFESSIONAL EXPERIENCE

Sep 2026 - Jun 2027 TM One HQ (Telekom Malaysia), Cyberjaya
Intern, BDA Team, Development Department

JohorNet OSF Portal (ongoing)

- Designing a multi-role portal prototype where Johor state agencies request network and security services: Firewall, BMT, IPS, WAF, DNS, and LAN IP.
- Mapped four user roles (Agency, Penyelia SUK Johor, Pelaksana SUK Johor, and GITN Resident Engineer) and routed each service to the right engineering team.
- Worked on multi-service checkout, filterable request trackers, a shared timeline view, and role-based notifications, as HTML screens imported into Figma.

ACADEMIC

2023 - Present Universiti Teknologi Malaysia (UTM) CGPA: 3.39
Bachelor of Computer Science (Data Engineering) with Honours

2022 - 2023 Kolej MARA Kuala Nerang, Kedah (KMKN) CGPA: 3.97
Engineering

PROJECTS

Flight Price Data Pipeline and Data Storage

- Built a four-layer PySpark medallion pipeline (Bronze, Silver, Gold, Curated) combining Kaggle flight price and flight delay data with the Open-Meteo weather API.
- Trained a Random Forest model with Spark MLlib that outperformed a linear regression baseline, and presented the results in a Power BI dashboard.
- Completed pipeline testing and wrote an IEEE-format paper under the supervision of the course lecturer.

PPG Recoverable Assets (RA) and Inventory Risk Management (IRM)

- Designed a four-layer medallion-inspired data pipeline consisting of Bronze, Silver, Gold, and Curated layers on Microsoft Azure to ingest, process, model, and serve inventory risk data.
- Built an interactive Microsoft Power BI dashboard that visualizes analytics-ready data from the Curated star schema in Azure Data Lake to answer seven inventory and order impact business questions.

Loan and Savings System, Koperasi Kakitangan KADA Kelantan Berhad

- Built a loan application system for the cooperative.
- Developed the Savings module of the system.
- Collaborated with Lembaga Kemajuan Pertanian Kemubu (KADA).

Student Management System, Institut Kemahiran MARA (IKM) Johor Bahru (TVET MARA Johor Bahru)

- Built the whole system in Flutter, applying skills developed in Application Development classes.
- Developed the User Registration and Timetable Upload modules until they were fully functional.
- Deployed the Student Management System live on Netlify.

SAP Enterprise Applications, Staff Leave Management Subsystem

- Deployed the Staff Leave Management Subsystem through SAP Business Application Studio.
- Documented the Leave Management Subsystem in full as part of the wider Staff Human Resource system.

Interactive Jumping Pou Game

- Developed a working game in C++.
- Wrote thorough report documentation for the project.

TECHNICAL SKILLS

Programming & Scripting	Python, SQL, PowerShell, PHP, JavaScript, Java, C++
Web Development	HTML, CSS
Data & Analytics	Microsoft Excel, Tableau, Power BI, Alteryx, pdfplumber
Automation & Integration	SAP, Azure, Apache Spark

CERTIFICATES

- Alteryx Designer Core
- Microsoft Certified: AZ-900 (Azure Data Fundamentals)
- AWS Academy - Cloud Foundations - Training Badge
- AWS Academy - Cloud Developing - Training Badge
- AWS Academy Lab Project - Cloud Data Pipeline Builder
- Google - Foundations of Project Management (Coursera)
- Google - Agile Project Management (Coursera)
- MyDIGITAL Corporation - Understanding Digital Transformation (Coursera)

EXTRACURRICULAR ACTIVITIES

Third Place, Festival Kesenian Zapin 2022

- Danced in a traditional folk-dance troupe; won third place at Universiti Sains Malaysia, Pulau Pinang.

Secretary, Aksara Resak 2024

- Managed official letters to make sure events ran smoothly.
- Prepared work papers in the latest required format for monthly, semester, and yearly engagement targets.

Social Media Manager, Citra Daksina 2025

- Managed Facebook and Instagram, growing the follower base by 25% in 6 months through targeted copywriting and multimedia content.
- Planned and executed a 12-post/month content calendar, achieving an average engagement rate of 7%.
- Prepared work papers in the latest required format for monthly, semester, and yearly engagement targets.

Volunteer, Sukan Institusi Pendidikan Malaysia (SIPMA) 2025

- Served as a line judge on court.
- Built connections with the referees involved in the games.
